

# Are you:

- a poultry worker
- a registered bird keeper
- involved in handling dead or unwell birds?

You're eligible for the free flu vaccine. While the vaccine does not protect against avian (bird) flu, it can reduce the risk of a new flu virus forming which could happen if you're exposed to flu and bird flu at the same time.

Scan the QR code or **visit [nhsinform.scot/flu](https://nhsinform.scot/flu)** to book an appointment.
